

Sharing Photos from your iPhone/iPad using Flickr

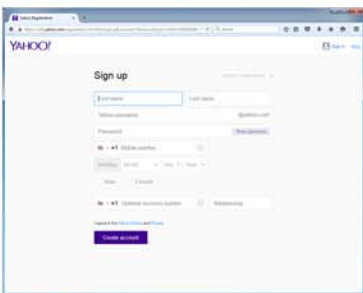

The first page of this tutorial is to help you setup a Flickr account and create your first photo album which you will need to do in order to send photos from your iPhone/iPad. It is easiest you do this step on a computer. On the flip side of this page it will walk you through setting up your iPhone/iPad and how to start posting photos to Flickr.

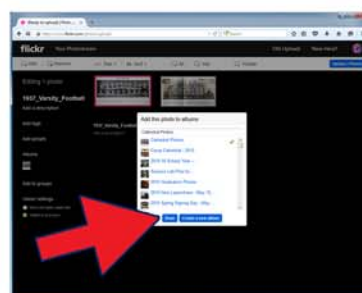

1. Go to flickr.com
If you don't have a yahoo email account click "Sign Up", if you have one then click "Sign In"

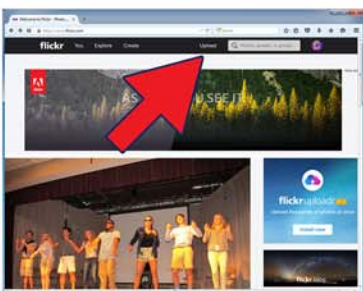

6. Click "Create album"

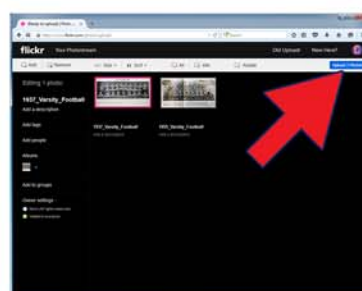

2. If you don't have Yahoo account, follow the instruction and set up your account.

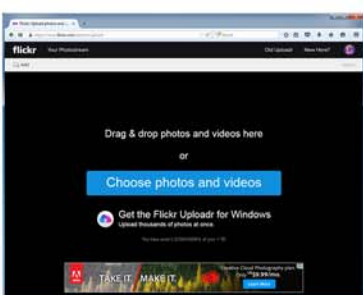

7. Click "Done"

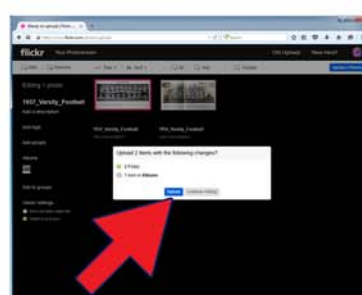

3. In order to post photos from your phone you must setup at least one album. Click the "Upload" button at the top of the page.

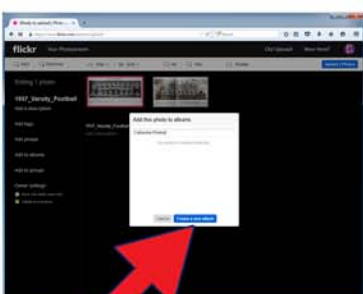

8. There are a number of other features you can look into but for this tutorial click the "Upload Photos" button at the top of the page.

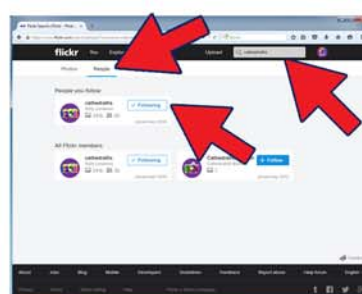

4. Drag a photo from your desktop into the window shown.

9. Click "Upload". Your album has now been created and you are ready to setup your phone.

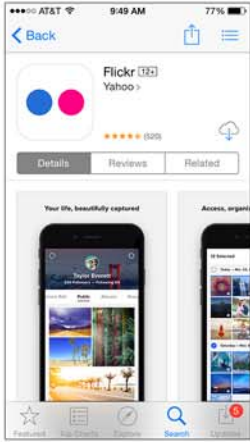

5. With the image selected press the "Add to Album" button on the left, give your album a name and click "Create a new Album"

10. Type "Cathedrals" in the search bar and then click the "People" tab. Click the "Follow" button next to the "cathedrals" by "Rolly Landeros".

Part 2 - Setting up Flickr on your phone

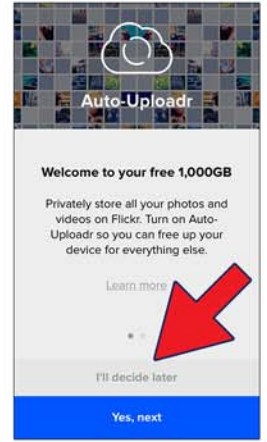

Search and download the Flickr app from the app store. Open app open it is downloaded

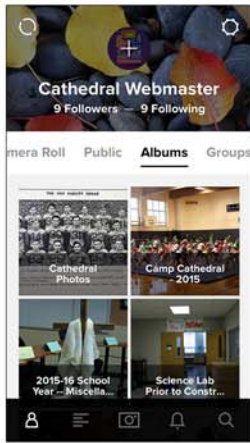

Push the "Add Account" button and login to yahoo account. (See flip side about creating Flickr account)

Click "Get Started"

Click "I'll decide later"

Once you are logged in your page will look similar to this.

Go to your photo album on your phone and click the send button in lower left corner

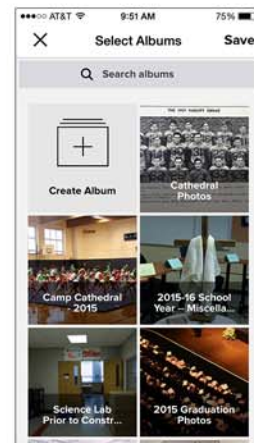

Click the "More" button

Turn on the Flickr button

Click the album button in lower right corner

Select the album you want to include your photo in. Click "Save"

Click the "Post" Button

Your have just posted your photo to Flickr. After everything is setup you will only need to do the last three steps.

This is just one great feature of Flickr. Log into your Flickr account on the computer and you can share photos, turn photos on and off, create printable memory books and more. And don't forget to share your photos with the marketing department so we can get them posted so everyone can see.
